Kloten coffee and side tables are suitable for commercial and residential applications. A refined design, offering a light aesthetic, the tables are available with wood tops, as shown, or with glass tops.

Top:

Wood tops are constructed from 1/2" medium density fiberboard (MDF) that is covered in wood veneer. All MDF used is certified by Scientific Certification Systems® as 100% recovered and recycled wood fiber made up of at least 60% post-industrial waste and the balance (40%) recovered fiber. In addition, Forest Stewardship Council certified cores and veneers are available. Tops are available in all standard Nienkämper veneers and stains. Glass tops are 1/2" thick glass, available in a clear or frosted finish.

Base:

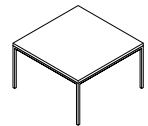

The base is made of 3/4" square tubular steel and is available in a brushed nickel, powder coat paint (silver or matte black) or polished chrome finish. Levelers are integrated into the base.

Special Features:

A Box Pattern is available on all wood tops, other veneer patterns can be specified.

Refer to the Nienkämper Seating and Tables price list for more information or visit the Nienkämper website at www.nienkamper.com.
